What Intune Versions Am I Running?

The screenshot displays the Microsoft Intune admin center for the organization 'skotheimsvik.no'. The left-hand navigation pane includes links to Home, Dashboard, All services, Explorer, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area features a large 'Intune Advanced Analytics' banner with a line graph icon and the text: 'Explore data and insights to get more visibility into endpoint issues in your organization. [Learn more about Advanced Analytics in Intune](#)'. To the right of the banner is a 'Device query for multiple devices' card, which states: 'Get on-demand data on the state of your devices. With device query, you can respond to security threats, troubleshoot devices, or make business decisions.' Below this text is a button labeled 'See how Device query can help'. At the bottom of the main content area, there is a 'Status' section.

What Intune Versions Am I Running?

The screenshot displays the Microsoft Intune admin center. The left sidebar contains navigation options: Home, Dashboard, All services, Explorer, Devices, Apps, Endpoint security, Reports, Users, Groups, **Tenant administration** (highlighted with an orange box), and Troubleshooting + support. The main content area is titled 'Tenant admin | Tenant status' and includes a search bar. Below the search bar is a list of tenant administration options: Tenant status (selected), Remote Help, Microsoft Tunnel Gateway, Cloud PKI, Connectors and tokens, Assignment filters, Roles, Microsoft Entra Privileged Identity Management, Diagnostics settings, Audit logs, Device diagnostics, and Multi Admin Approval. The right pane shows 'Tenant details' with the following information:

Tenant name	MDM authority	Service release
skotheimsvik.com	Microsoft Intune	2508
Tenant location	Account status	Total enrolled devices
Europe 0601	Active	6
Total licensed users		
2		
Total Intune licenses		
20		

What Intune Versions Am I Running?

The screenshot shows the Microsoft Intune admin center interface. The left sidebar contains navigation links: Home, Dashboard, All services, Explorer, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area is titled 'Tenant admin | Tenant status' and includes a search bar. Below the search bar is a list of tenant management options, with 'Tenant status' selected. The 'Tenant details' tab is active, displaying information for the tenant 'skotheimsvik.com'. The 'Service release' is highlighted with a red box, showing the value '2508'. Other details include 'MDM authority: Microsoft Intune', 'Account status: Active', 'Total enrolled devices: 6', 'Total licensed users: 2', and 'Total Intune licenses: 20'.

Tenant details		Connector status	Service health and message center
Tenant name	skotheimsvik.com	MDM authority	Microsoft Intune
Tenant location	Europe 0601	Account status	Active
		Service release	2508
		Total enrolled devices	6
Total licensed users	2		
Total Intune licenses	20		

The background image is a screenshot of the Microsoft Intune admin center. The interface includes a left-hand navigation pane with categories like 'Home', 'Dashboard', 'All services', 'Explorer', 'Devices', 'Apps', 'Endpoint security', 'Reports', 'Users', 'Groups', 'Tenant administration', and 'Troubleshooting + support'. The main content area is titled 'Tenant admin | Tenant status' and contains a search bar, a list of tenant status items, and tabs for 'Tenant details', 'Connector status', and 'Service health and message center'. A specific tenant entry for 'skotheimsvik.com' is highlighted with a yellow box, showing details like 'Tenant location: Europe 0601', 'Account status: Active', and 'Total Intune licenses: 20'. A large, bold, white text overlay is centered on the screen, reading 'Your tenant is moving, but your config is not!'. The text is in a sans-serif font and is the primary focus of the image.

Your tenant is moving, but your config is not!

Your tenant is moving, but your config is not!

The screenshot displays the Microsoft Intune admin center interface. The left sidebar contains navigation links: Home, Dashboard, All services, Explorer, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area shows the 'Overview' page for a Windows device. The breadcrumb trail is 'Home > Devices | Overview > Windows | Windows devices'. The 'Overview' page includes a search bar, a list of actions (Retire, Wipe, Delete, Remote lock, Sync, Reset password), and a table of device details. The table has two columns: 'Essentials' and 'Details'. The 'Essentials' column lists: Device name, Management name, Ownership (Corporate), Serial number, Phone number, and Device manufacturer (HP). The 'Details' column lists: Primary user (Simon Skotheimsvik), Enrolled by (Justin Time), Compliance (Compliant), Operating system (Windows), Device model (HP Elite Mini 600 G9 De), Last check-in time (8/26/2025, 12:45:47 PM), Remote assistance, and Remote Help. A yellow box highlights the 'Primary user' and 'Enrolled by' fields.

The screenshot displays the Microsoft Intune admin center interface. The left sidebar shows navigation options: Home, Dashboard, All services, Explorer, Devices, Apps, Endpoints, Reports, Users, Groups, Tenants, and Troubleshooting. The main content area shows the 'Overview' page for a specific device, with a search bar and action buttons like Retire, Wipe, Delete, Remote lock, Sync, and Reset password. A callout box titled 'Microsoft Intune admin center' and 'Default Device Compliance Policy' is overlaid on the screen. It lists three settings: 'Has a compliance policy assigned' (Compliant), 'Is active' (Compliant), and 'Enrolled user exists' (Not compliant). The 'Enrolled user exists' setting is highlighted with a yellow border. The background also shows a table of device details, including Device name, Enrollment name, Enrollment date, Enrollment number, Device number, and Device manufacturer. On the right, a summary box shows the Primary user as Simon Skotheimsvik, Enrolled by Justin Time, and Compliance status as Compliant. The Operating system is Windows, and the Device model is HP Elite Mini 600 G9 De. The Last check-in time is 8/26/2025, 12:45:47 PM. Remote assistance and Remote Help are also listed.

Important

Android device administrator (DA) management is deprecated and no longer available for devices with access to Google Mobile Services (GMS). If you currently use DA management, we recommend switching to another Android management option. Support and help documentation remain available for some Android 15 and earlier devices without GMS. For more information, see [Ending support for Android device administrator on GMS devices](#).

- Missing Speed Initiatives

The screenshot displays the Microsoft Intune admin center interface. The left sidebar shows the navigation menu with 'Tenant administration' highlighted. The main content area shows the 'Multi Admin Approval' configuration page. The 'Access policies' tab is highlighted in the top right. A modal window titled 'Create an access policy' is open, showing the 'Basics' tab with fields for Name and Description. A dropdown menu for 'App' is open, listing options: Device delete, Device retire, Device wipe, Role, Script, Tenant configuration, and Tenant configuration (selected).

Device Configurations: Lessons from Environments Out of Tune

The screenshot displays the Microsoft Intune admin center interface. On the left, the navigation pane includes options like Home, Dashboard, All services, Explorer, **Devices**, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The 'Devices' section is expanded, showing sub-options: Device query, Monitor, By platform, Device onboarding, Manage devices, Manage updates, Organize devices, Device clean-up rules, **Assignment filters**, Help and support, and Help and support. The 'Assignment filters' option is highlighted. The main content area is titled 'Devices | Assignment filters' and includes a search bar, a list of actions (Create, Refresh, Export, Columns), and a table. The table has columns for 'Filter name', 'Platform', and 'Filter', but it is currently empty, displaying a 'No data found' message with a 3D cube icon.

Manage all devices: Intune ♥ macOS

Did you know?

macOS devices in Intune now benefit from the same Microsoft Security ecosystem as Windows.

The screenshot displays the Microsoft Intune admin center interface. The left sidebar contains navigation links: Home, Dashboard, All services, Explorer, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area is titled 'Microsoft Intune admin center' and shows the 'Devices | Overview' page. A search bar and a 'Refresh' button are at the top right. Below the search bar, a list of device categories is shown: Overview, All devices, Device query, Monitor, and a 'By platform' section. The 'By platform' section lists Windows, iOS/iPadOS, macOS (highlighted with an orange box), Android, and Linux. At the bottom of this list is a 'Device onboarding' link. On the right side of the interface, there is a section titled 'Manage devices by platform' which shows three cards: Windows (0 devices), macOS (0 devices), and Linux (0 devices).

Manage all devices: Intune ♥ macOS

- Integrate Apple Business Manager
- Zero Day Settings in Settings Catalog
- Platform SSO
- LAPS
- MDE
- FileVault
- OneDrive
- Microsoft 365

Application Management:

- All Operating Systems
- Self-Service Through Company Portal
- Apple VPP/Google Store
- Third Party Solutions

New Features: Copilot for Security, The Explorer Blade

The screenshot displays the Microsoft Intune admin center interface. The left-hand navigation pane is dark-themed and contains several menu items. The 'Explorer' item, which features a magnifying glass icon, is highlighted with a bright orange rectangular border. Other visible items in the navigation pane include Home, Dashboard, All services, Devices, Apps, Endpoint security, Reports, Users, Groups, Tenant administration, and Troubleshooting + support. The main content area on the right is titled 'Explorer' and includes a search bar with the placeholder text 'Start typing to search your Intune data, or see below for examples'. Below the search bar, there is a large, colorful illustration of a magnifying glass over a document. At the bottom of the main area, a text block explains the purpose of the Explorer blade: 'Find the Intune data you're looking for. Search your tenant for info about devices, users, apps, compliance, or updates. Copilot can also help you understand what kind of questions you can ask and how to ask them.'
